🏠 123Ahore, Jalore

EDUCATION

B.tech in Electronics and communication engineering from NIT, Hamirpur (HP)

EXPERTISE

- Graphics design
- Web Developement
- Machine learning

PROFILE

Experience in Machine learning and developing responsive web applications. Proficient in python, C++, and JavaScript, with a deep understanding of Machine learning. Collaborative team player with excellent communication skills and a proven track record of delivering high-quality projects on time and within budget.

WORK EXPERINCE

As a software developer intern at skilsoft contributed to the development of an e-commerce platform and a customer relationship management (CRM) system under the guidance of experienced mentors. I gained hands-on experience in Python, java script, c++ and c language participated in team meetings, and collaborated with cross-functional teams to deliver high-quality software solutions. Additionally, I had the opportunity to learn about industry best practices, including version control systems like Git and agile methodologies such as Scrum, while making meaningful contributions to the team's objectives.

- **ARwithIOT Homeautomation**

  Augmented Reality (AR) combined with the Internet of Things (IoT) has the potential to revolutionize home automation by providing immersive and interactive experiences for users.

- **AJIVIKA**

  Ajivika is a pioneering booth equipped with a map-based interface that revolutionizes how laborers connect with job opportunities provided by contractors.
